VIA HAND DELIVERY

Hon. Deborah Taylor Tate, Chairman  
Tennessee Regulatory Authority  
460 James Robertson Parkway  
Nashville, TN 37238Re: *Implementation of the Federal Communications Commission's  
Triennial Review Order (Nine-month Proceeding)(Switching)*  
Docket No. 03-00491

Dear Chairman Tate:

Enclosed are the original and fourteen copies of BellSouth's Supplemental Responses to AT&T's First Set of Interrogatories. These responses are regional in nature. Due to the large volume of the attachments to the responses (approximately 100,000 pages), the regional responsive documents have been posted to a website. Within each applicable response, the URL and file format name at which the documents can be viewed and/or printed is clearly set out. The only response containing Tennessee-specific information is an Attachment to Interrogatory No. 45. That attachment is attached to the enclosed responses for your convenience.

Copies of the enclosed are being provided to counsel of record.

Very truly yours,

  
Guy M. Hicks

GMH:ch

**BEFORE THE TENNESSEE REGULATORY AUTHORITY**

In Re:	)	
	)	Docket No. 03-00491
IMPLEMENTATION OF THE FEDERAL	)	
COMMUNICATIONS COMMISSION'S	)	
TRIENNIAL REVIEW ORDER – 9	)	Filed: December 3, 2003
MONTH PROCEEDING – SWITCHING	)	

**BELLSOUTH TELECOMMUNICATIONS, INC.'S  
SUPPLEMENTAL RESPONSES TO  
AT&T COMMUNICATIONS OF THE SOUTH CENTRAL  
STATES, LLC'S  
FIRST SET OF INTERROGATORIES**

BellSouth Telecommunications, Inc. ("BellSouth") respectfully submits the following supplemental responses to the First Set of Interrogatories served by AT&T Communications of the South Central States, LLC's ("AT&T") dated October 27, 2003 and states as follow:

BellSouth incorporates herein by reference all of its general and specific objections filed on November 6, 2003. Any responses provided by BellSouth in response to this discovery will be provided subject to and without waiving any of BellSouth's previously filed objections

**SUPPLEMENTAL RESPONSES TO INTERROGATORIES**

**REQUEST:** Please provide, in table format, the following information for each BellSouth host or remote CO in BellSouth's nine-state region:

- (a) CLLI code;
- (b) address;
- (c) city or town;
- (d) whether the CO is staffed full time (i.e., during regular business hours), part-time (and if so on what basis), or unstaffed; and
- (e) whether the switch within the CO is a remote switch, and if so identify the associated host switch.

**SUPPLEMENTAL RESPONSE:**

The information responsive to this request is available via the following URL link:

<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_01. NOTE: A central office is noted as "Manned" if BellSouth employees report to that central office every day regardless of workload, and a central office is marked "Unmanned" if employees are only dispatched to that location when workload warrants. No central offices are unmanned all the time. Some central offices contain multiple switches that can be either hosts or remotes.

BellSouth Telecommunications, Inc.

Tennessee Regulatory Authority

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 4

Page 1 of 3

**REQUEST:** For each day between August 1, 2000 and August 1, 2003, or for the latest period in which this information is available, and for each CO identified in the answer to Interrogatory No. 1, please provide the number of access lines transferred by BellSouth via:

- (a) Any hot cut method;
- (b) An individual hot cut method. For transfers made via this method please provide:
  - (i) the total number of access lines transferred;
  - (ii) the total number of BellSouth retail access lines transferred to UNE-L;
  - (iii) the total number of UNE-P access lines transferred to UNE-L; and
  - (iv) the total number of service resale access lines transferred to UNE-L.
- (c) A bulk hot cut method. For transfers made via this method please provide:
  - (i) the total number of batches transferred and the number of access lines transferred in each batch;
  - (ii) the total number of batches of BellSouth retail access lines transferred to UNE-L and the number of BellSouth retail access lines in each batch of BellSouth retail access lines transferred to UNE-L;
  - (iii) the total number of batches of UNE-P access lines transferred to UNE-L and the number of UNE-P access lines in each batch of UNE-P access lines transferred to UNE-L; and
  - (iv) the total number of batches of service resale access lines transferred to UNE-L and the number of service resale access lines in each batch of service resale access lines transferred to UNE-L.

If BellSouth cannot provide this information on a daily basis, but can provide it organized by some other time period (e.g. week, month, or quarter), please provide in that format. If BellSouth can provide the information for some COs or categories and not other COs or categories, please provide for the categories available and explain why information on other categories or COs is not available.

**SUPPLEMENTAL RESPONSE:**

BellSouth does not retain the data necessary to provide the information in the format requested. Specifically, BellSouth's databases do not always reflect the former status of a particular facility. For example, a facility currently classified as a UNE-L line does not carry information reflecting whether that facility was formerly a Retail, Resale, UNE-P, UNE-L to another carrier, or a new installation as a UNE-L. However, BellSouth has gathered data from several different sources in an attempt to be responsive, although the total numbers will not add back to 100% of data. Furthermore, the data reflect hot cuts from November 2000, which is the earliest month for which data is available, through September 2003, which is the most current month for which data is available.

- (a) Data reflecting the day, central office CLLI, and number of access lines transferred are contained in a Microsoft Excel file, which is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_04.

- (b) (i) 306,930 region wide  
(ii) 216,613 region wide  
(iii) 48,313 region wide  
(iv) 8,634 region wide
- (c) Presently, BellSouth does not separately identify in its databases cuts made as part of a batch cut, although a method of identifying batch cuts or bulk migrations of UNE-P to UNE-L is currently being developed. To date, Florida is the only state where BellSouth has received a Bulk Migration request.

**SUPPLEMENTAL RESPONSE (CONT.):**

- (i) In the NDADFLGG Central Office, BellSouth has worked one Bulk Migration involving one line. This request initially had 2 lines submitted on the request but one line was later canceled. This request was converted on 6/18/2003. In the MIAMFLRR Central Office, BellSouth has worked one Bulk Migration with 2 lines. The request also was converted on 6/18/2003.
- (ii) BellSouth does not have a Bulk Migration process for the transfer of Retail lines to UNE-L.
- (iii) See response to (i) above. All of these lines were converted from UNE-P.
- (iv) BellSouth does not have a Bulk Migration process for the transfer of Resale lines to UNE-L.

BellSouth Telecommunications, Inc.

Tennessee Regulatory Authority

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 6

Page 1 of 1

**REQUEST:** Does BellSouth have a policy or practice of limiting the number of COs in which bulk hot cuts may occur in a single day or night? If your answer is in the affirmative:

- (a) Describe the policy in detail.
- (b) Are limits established for a particular geographic area or areas within the BellSouth territory? If so, define the geographic areas for which such limits are established and explain the basis or reasons for these area definitions.
- (c) Provide a detailed explanation for why these limits are being imposed.

**SUPPLEMENTAL RESPONSE:**

BellSouth does not have a policy or practice to limit the number of COs in which bulk hot cuts may occur in a single day or night.

**REQUEST:** Does BellSouth have a policy or practice of limiting the number of bulk hot cuts or bulk hot cut projects that may occur in a single day or night? If your answer is in the affirmative:

- (a) Describe the policy in detail.
- (b) Are limits established for a particular geographic area or areas within the BellSouth territory? If so, define the geographic areas for which such limits are established and explain the basis or reasons for these area definitions.
- (c) Provide a detailed explanation for why these limits are being imposed.

**SUPPLEMENTAL RESPONSE:**

BellSouth does not have a policy or practice to limit the number of COs in which bulk hot cuts may occur in a single day or night.

**REQUEST:** Please provide the maximum number of lines that can be converted (per day) to UNE-L using:

- (a) a "bulk" hot cut process per CO in BellSouth's nine-state region as a whole; and
- (b) an individual hot cut process per CO in BellSouth's nine-state region.

**SUPPLEMENTAL RESPONSE:**

There is no set number of hot cuts that BellSouth has established for either "bulk" or individual hot cuts for any central office in any state in the BellSouth region. BellSouth's hot cut process is based on load volumes and force. BellSouth uses plan size methods to monitor staffing levels to ensure that expected hot cut volumes will be met.

BellSouth Telecommunications, Inc.

Tennessee Regulatory Authority

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 10

Page 1 of 1

**REQUEST:** Are there COs in which BellSouth has never performed a hot cut? If yes, please identify those COs by reference to the list provided in the response to Interrogatory No. 1.

**SUPPLEMENTAL RESPONSE:**

The earliest month for which hot cut data is available is November 2000. Those central offices in which BellSouth has not performed a hot cut from November 2000 through September 2003, which is the most current data month, is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_10.

BellSouth Telecommunications, Inc.

Tennessee Regulatory Authority

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 11

Page 1 of 1

**REQUEST:** Provide the average time spent by BellSouth Central Office personnel who work directly on the Main Distribution Frame or other frames to conduct a single cutover on a single order, separated between each type or classification of cutover provided by BellSouth, including, but not limited to, "non-coordinated," "coordinated," "coordinated time-specific," or "bulk" cutovers, and explain how this was calculated.

**SUPPLEMENTAL RESPONSE:**

Presently, the average times spent by BellSouth Central Office personnel to conduct a single cutover for a non-designed SL1 loop on a single order are:

<u>Activity</u>	<u>1<sup>st</sup> Loop (Minutes)</u>	<u>Additional Loops (Minutes)</u>
non-coordinated cutover	26	17
coordinated cutover	36	19
coordinated time-specific cutover	36	19
bulk (with coordination) cutover	36	19

All of the times are based on Subject Matter Expert estimates. See also BellSouth's response to AT&T's First Set of Interrogatories, Item No. 43,

BellSouth Telecommunications, Inc.  
Tennessee Regulatory Authority  
Docket No. 03-00491  
AT&T's 1<sup>st</sup> Interrogatories  
October 27, 2003  
**SUPPLEMENTAL RESPONSE** Item No. 14  
Page 1 of 1

**REQUEST:** For each day between August 1, 2000 and August 1, 2003, or for the latest period in which this information is available, and for each CO identified in the answer to Interrogatory No. 1, please provide the number of UNE-P migration orders that have been completed by BellSouth.

**SUPPLEMENTAL RESPONSE:**

See BellSouth's supplemental response to AT&T's First Set of Interrogatories, Item No. 4.

**REQUEST:** What is the maximum number of UNE-P migration orders that can be completed in a given work day in each of BellSouth's COs?

**SUPPLEMENTAL RESPONSE:**

See BellSouth's supplemental response to AT&T's First Set of Interrogatories, Item No. 8.

BellSouth Telecommunications, Inc.

Tennessee Regulatory Authority

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 16

Page 1 of 1

**REQUEST:** What is the maximum number of UNE-P migration orders in **total** that can be completed in a given work day in BellSouth COs in BellSouth's nine-state region?

**SUPPLEMENTAL RESPONSE:**

See BellSouth's supplemental response to AT&T's First Set of Interrogatories, Item No. 8.

**REQUEST:** For each day between August 1, 2000 and August 1, 2003, or for the latest period in which this information is available, and for each CO identified in the answer to Interrogatory No. 1, please separately provide the number of interLATA and intraLATA PIC changes processed by BellSouth.

**SUPPLEMENTAL RESPONSE:**

The information responsive to this request is available via the following URL link:

<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_17.

**REQUEST:** Provide, for each individual CO, end office, and serving wire center:

- (a) total collocation space;
- (b) total collocation space currently occupied by carriers;
- (c) names of carriers currently occupying collocation space;
- (d) total collocation space held or occupied by carriers who are no longer operating; and
- (e) total collocation space available for carriers.

**SUPPLEMENTAL RESPONSE:**

- (a) Information concerning the approximate square footage of collocation floor space for each individual CO, end office and serving wire center in BellSouth's nine-state region in which there are currently collocators is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_40a. BellSouth designates individual CO, end office and serving wire center floor space as "collocation space" when it is assigned to a collocator that has submitted a valid collocation application. The floor space remains designated as "collocation space" until the carrier physically removes its equipment and the collocation arrangement is reduced or terminated.

- (b) The aggregate amount of collocation space currently occupied by carriers in BellSouth's COs, end offices and serving wire centers in BellSouth's nine-state region is provided in the response to Item No. 40(a) above.
- (c) BellSouth objects to this request on the grounds that it seeks information that is not relevant and that BellSouth cannot disclose under the FCC's Customer Proprietary Network Information ("CPNI") rules, 47 CFR §64.2007.

**SUPPLEMENTAL RESPONSE (CONT.):**

- (d) Information concerning the approximate square footage of collocation space held or occupied by carriers who are no longer in operation (i.e., carriers that are out of business or have filed for bankruptcy) in BellSouth's nine-state region is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_40d.

- (e) Information concerning those COs, end offices and wire centers in BellSouth's nine-state region in which collocation space currently exists is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file format is inter\_attach\_40e. Collocation space is available in all of BellSouth's COs, end offices and wire centers in BellSouth's nine-state region, with the exception of the following three offices: J. Turner Butler CO in Jacksonville, Florida (CLLI Code: JCVLFLJT), Lake Mary Main CO in Lake Mary, Florida (CLLI Code: LKMRFLMA), and the Old Dowd CO in Charlotte, North Carolina. These three offices are contained on BellSouth's Space Exhaust List, which is posted on BellSouth's website at:  
[http://interconnection.bellsouth.com/notifications/carrier/carrier\\_pdf/91081451-C.pdf](http://interconnection.bellsouth.com/notifications/carrier/carrier_pdf/91081451-C.pdf)

BellSouth Telecommunications, Inc.

Tennessee Regulatory Authority

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 43

Page 1 of 1

**REQUEST:** Does BellSouth have logs, studies or other records documenting the time required by its employees to complete all or some of the tasks associated with either the individual hot cut process or the bulk hot cut process? If yes, in what form does BellSouth maintain such records (e.g. electronically, on paper)? In addition, please list each task for which completion time is logged or recorded in a study.

**SUPPLEMENTAL RESPONSE:**

The records documenting the time it takes BellSouth employees to perform hot cuts is captured in the performance measures and underlying data discussed in BellSouth's response to AT&T's First Set of Interrogatories, Item No. 39, which is readily available to AT&T. This data captures all hot cuts whether ordered via the individual process or the batch process. BellSouth also has completed a cost study for the batch hot cut process as defined in the UNE-P to UNE-L Bulk Migration document found in the CLEC Information Package, which includes work times associated with the tasks in performing the batch hot cut process. BellSouth will provide a copy of this cost study under separate cover.

**REQUEST:** In BellSouth's Ex Parte in FCC Docket 01-338, filed December 24, 2002, on page 7, a table sets forth BellSouth's calculation of the time required to convert the "Top 20 UNE-P wire centers" to UNE-L or EELs. Provide answers to the following questions regarding that table:

- (a) How many technicians were planned to work per shift, per wire center, to accomplish these conversions?
- (b) How many conversions were planned per technician, per shift in each of the twenty wire centers?
- (c) What is the maximum amount of new migrations BellSouth would be able to complete during the 3 -9 months these conversions would take place?
- (d) How many UNE-P customers exist in these 20 wire centers as of September 1, 2003?

**SUPPLEMENTAL RESPONSE:**

- (a) The assumption was that each of the Top 20 UNE-P wire centers, shown on page 7 of BellSouth's December 24, 2002, ex parte, have large frames and that there would typically be 6 technicians working on the frame during the normal day shift, with a maximum of 12 technicians able to work on the frame at any given time. Two shifts were assumed (except for the HLWDFLPE wire center where some third shift work was assumed) per day, with 6 technicians performing cuts during the day shift and 12 technicians performing cuts during the night shift, for an average of 9 technicians per wire center per day.
- (b) The number of conversions per technician per shift in each of the twenty wire centers works out to be approximately 11.5, which results in approximately 104 conversions per wire center per day. In HLWDFLPE, assuming some third shift work, the number of conversions per technician per shift is approximately 13, which results in approximately 156 conversions per day.
- (c) There is no set number of conversions that BellSouth has established. BellSouth uses plan size methods to monitor staffing levels to ensure that expected conversion volumes can be met.

October 27, 2003  
**SUPPLEMENTAL RESPONSE** Item No. 44  
Page 2 of 2

**SUPPLEMENTAL RESPONSE CONT.):**

- (d) The information responsive to this request is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

**REQUEST:** In the Affidavit of Kenneth L. Ainsworth and W. Keith Milner filed by BellSouth in Docket 01-388 on July 17, 2002, at Paragraph 41, BellSouth states that "...anywhere from 2 to 10 (or more) central office technicians may be at work simultaneously on the same MDF with no negative impact on productivity." With regard to that statement:

- (a) Provide, by MDF and CO, the number of central office technicians that may work simultaneously on the same MDF with no negative impact on productivity.
- (b) Quantify how frequently this number of technicians "may work simultaneously on the same MDF with no negative impact on productivity":
  - i. two
  - ii. three
  - iii. four
  - iv. five
  - v. six
  - vi. seven
  - vii. eight
  - viii. nine
  - ix. ten
  - x. more than ten

**SUPPLEMENTAL RESPONSE:**

- a) See Attachment. The numbers in the columns labeled "# of Techs on Conv. Frame" and "# of Techs on Module Frame" represent the maximum number of technicians that can work on conventional and modular style Main Distributing Frames ("MDFs") without impacting productivity. As a general rule, BellSouth allows two technicians per 50 verticals on a conventional frame (up to 200 verticals or a maximum of 10 technicians) and 1 technician per 10 modules on a modular frame.

BellSouth Telecommunications, Inc.

Tennessee Regulatory Authority

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 45

Page 2 of 2

**SUPPLEMENTAL RESPONSE (CONT.):**

- b) The frequency of the number of technicians who "may be at work simultaneously on the same MDF with no negative impact on productivity" is not information tracked by BellSouth. The number of technicians working on a frame depends on the workload.

BellSouth Telecommunications, Inc.

Tennessee Regulatory Authority

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 48

Page 1 of 1

**REQUEST:** Quantify any projected change in OSS charges anticipated with the implementation of a state approved batch hot cut process.

**SUPPLEMENTAL RESPONSE:**

BellSouth has no current plans to change its OSS charges that are either established by the state Public Service Commissions or negotiated by the parties in connection with its batch hot cut process.

**REQUEST:** For the most recent quarter for which information is available, provide by applicable CLLI code the number of:

- (a) Analog loops provided to competitive carriers with unbundled local switching (i.e., UNE-P lines);
- (b) Analog loops provided to competitive carriers without unbundled local switching. (UNE-L); and
- (c) The number of CLECs who are collocated in that wire center and indicate the number of such CLECs who currently have analog (copper) cross connection capability to the BellSouth MDF; and
- (d) The number of small business lines (based on DSO/DS1 cutoff) and number of residential lines.

**SUPPLEMENTAL RESPONSE:**

- (a) The information responsive to this request is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_55. The information responsive to this request is located under the Column labeled "Total Analog UNE-P Lines."

- (b) See response to subpart (a) above. The information responsive to this request is located under the Column labeled "Total Analog UNE-L Loops." For purposes of this response, "Total Analog UNE-L Loops" includes SL1, SL2, and UCL-ND loop types.
- (c) See response to subpart (a) above. The information responsive to this request is located under the Column labeled "No. of Collocated CLECs."
- (d) To the extent this information is available, it has been provided in BellSouth's response to Interrogatory Item No. 21.

BellSouth Telecommunications, Inc.

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 69

Page 1 of 1

**REQUEST:** In BellSouth's nine-state region, please provide the current total number for BellSouth of:

- a) Central Offices; and
- b) Remote Terminals.

**SUPPLEMENTAL RESPONSE:**

- a) 1,590
- b) 35,592

**SUPPLEMENTAL RESPONSE** Item No. 88  
Page 1 of 3

- REQUEST:** In BellSouth's nine-state region, in BellSouth's Central Offices that currently have one or more collocators, please provide the following information for each of those central offices:
- a) Name and location of the central office;
  - b) The exchange served by the central office;
  - c) The number of collocations by collocation type;
  - d) The total amount of space currently being used by collocators;
  - e) The total amount of space available for use by collocators (which does not include space reserved for your company or its affiliates);
  - f) Names of carriers currently occupying collocation space;
  - g) The date the carriers took occupancy;
  - h) Collocation space held by carriers who are currently in bankruptcy proceedings;
  - i) Collocation space occupied by CLECs no longer operating;
  - j) Whether the CO is manned or unmanned;
  - k) The number of cross-connects in service to the wire center; and
  - l) The number of UNE loops provisioned to each collocating carrier in the past 3 months.

**SUPPLEMENTAL RESPONSE:**

- (a) The name and location of each BellSouth Central Office in BellSouth's nine-state region that currently has one or more collocators are available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>  
  
The file name format is inter\_attach\_88a.
- (b) The name of the exchange served by each BellSouth Central Office in which there are one or more collocators in BellSouth's nine-state region is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>  
  
The file name format is inter\_attach\_88a.

**SUPPLEMENTAL RESPONSE (CONT.):**

- (c) The number of collocation arrangements by collocation type (physical and virtual) for each BellSouth Central Office in BellSouth's nine-state region is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>  
  
The file name format is inter\_attach\_88c.
- (d) See BellSouth's Supplemental Response to Interrogatory Item No. 40(b).
- (e) See BellSouth's Supplemental Response to Interrogatory Item No. 40(e).
- (f) BellSouth objects to this request on the grounds that it seeks information not relevant to this proceeding and that BellSouth cannot disclose under the FCC's Customer Proprietary Network Information rules, 47 CFR §64.2007.
- (g) BellSouth objects to this request on the grounds that it seeks information not relevant to this proceeding and that BellSouth cannot disclose under the FCC's Customer Proprietary Network Information rules, 47 CFR §64.2007.
- (h) See BellSouth's Supplemental Response to Interrogatory Item No. 40(d).
- (i) See BellSouth's Supplemental Response to Interrogatory Item No. 40(d).
- (j) See BellSouth's Supplemental Response to Interrogatory Item No.

**SUPPLEMENTAL RESPONSE (CONT.):**

- (k) The number of cross-connects that are in-service in each BellSouth Central Office in BellSouth's nine-state region is available via the following URL link.  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_88k.

- (l) Information concerning the number of UNE loops provisioned to collocating carriers without disclosing CPNI information is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_88l.

BellSouth Telecommunications, Inc.

Tennessee Regulatory Authority

Docket No. 03-00491

AT&T's 1<sup>st</sup> Interrogatories

October 27, 2003

**SUPPLEMENTAL RESPONSE** Item No. 89

Page 1 of 1

**REQUEST:** In BellSouth's nine-state region, identify the number of BellSouth's Central Offices in which there are no current collocation arrangements provided to CLECs. Of the number identified, please identify name and location of the central office, and state whether the CO is manned or unmanned.

**SUPPLEMENTAL RESPONSE:**

In BellSouth's nine-state region, there are 1,042 Central Offices in which BellSouth is providing no collocation arrangements to CLECs. Information concerning the Name and Location of the BellSouth Central Offices in BellSouth's nine-state region in which there are no current collocation arrangements provided by BellSouth to CLECs is available via the following URL link:  
<http://bellsouthcorp.com/policy/triennialreview/filings/2003-12-03/>

The file name format is inter\_attach\_89. See BellSouth's Supplemental Response to AT&T's First Set of Interrogatories, Item No. 1, as to whether or not these COs are manned or unmanned.
